---

The Undersigned does hereby affirm and acknowledge to Vidler Water Company that they have been unable to install a water meter relative to their water right and understand the potential consequences of being unable to prove the beneficial use of the conditional water right that we purchased from Vidler Water Company (Vidler).

By signing below I give permission for Vidler to again attempt to prove reasonable diligence on our conditional water right until the undersigned can provide to Vidler and the Colorado Division of Water Resources the verification of beneficial use through meter readings.

We agree to install a meter within the ninety (90) days following the recording of the Deed between me and Vidler. It is understood that the timeframes can be extended to do circumstances beyond our control such as weather, part-time residency and related reasons.

By our signature we agree that we will provide meter readings to Vidler at least once per year until beneficial use is established on our conditional water right.
